

A female veterinarian with long brown hair, wearing a white lab coat and blue gloves, is smiling while using a stethoscope to examine a light-colored dog. The dog is sitting and looking towards the camera. The background is a bright, clean clinical setting with a white shelf holding some papers and a green plant.

Przydatne zwroty i słowa w weterynarii

A close-up photograph showing a medical professional's gloved hand drawing a clear liquid from a glass vial into a syringe. The vial is labeled '500 ml' and has a red cap. The syringe is marked with '100' and '10'. The background is a blurred clinical setting.

A clear plastic syringe with a green plunger and needle, containing a dark liquid. The syringe is shown at an angle, with the needle pointing towards the bottom left. The plunger is at the top right, and the needle is at the bottom left. The syringe has a scale on the barrel with markings for volume. The needle is thin and metallic. The plunger is green and has a T-shaped handle. The syringe is set against a white background.

A medical syringe with a green plunger and needle, containing a dark liquid. The syringe is shown at an angle, with the needle pointing towards the bottom left. The plunger is partially inserted into the barrel, and the dark liquid is visible inside the barrel. The syringe has a white barrel with black markings and a green plunger. The needle is long and thin, and the plunger has a green rubber seal. The syringe is shown against a white background.
